

CloroxPro®

Clorox® Anywhere® Daily Disinfectant & Sanitizer for Sprayer Devices

Food contact electrostatic chemistry to disinfect and sanitize hard surfaces

Safe for Sprayer Devices

Tested for use through handheld, backpacks and cart sprayer devices without compromising safety, compatibility and performance.

No-Rinse Food-Contact Surface Sanitizer

Kill 99.9% of bacteria: *E. coli*, *Listeria*, *Salmonella* in 1 minute on food-contact surfaces, no rinse required.*

Mild Formula Is Powerful Enough to Kill Pathogens of Interest

Kills common illness-causing cold[†] and flu viruses, and bacteria, including *Salmonella*, *E. coli* (O157:H7), *Staphylococcus* (staph) and *Streptococcus pneumoniae* (strep).* Can be used against COVID-19 virus.[‡]

Gentle as Water

The hypochlorous acid fragrance and residue-free formula is mild enough to use around kids, pets and food. Disinfect and sanitize most surfaces anytime, anywhere.

* *Salmonella enterica* (*Salmonella*), *Escherichia coli* (*E. coli*), *Staphylococcus aureus* (staph) and *Streptococcus pneumoniae* (strep)

† Kills Rhinovirus and Human Coronavirus

‡ Meets criteria for inclusion on EPA's List N — Disinfectants for Coronavirus (COVID-19). Follow directions for use and contact time for Rhinovirus.

Keep out of reach of children

Experience the difference

No Respiratory PPE Required and Immediate Re-entry

Robust lab testing done to deliver confidence and safety

Easy to Use

No rinsing or wiping is necessary after disinfection and sanitization. And since the formula is low odor and leaves no residue, your surfaces will be food-prep, kid- or pet-ready.

Disinfect & Sanitize High-Touch Surfaces

Suitable for daily use on: water fountains, kids' playroom toys, booster chairs, diaper changing tables, lunch boxes, countertops, kitchen appliances, food cases, pet toys, food bowls and more.

One Spray...Many Uses

CloroxPro® Clorox® Anywhere® Daily Disinfectant & Sanitizer for Sprayer Devices is ideal for use wherever surface disinfection and sanitization are important.[§]

[§] Use as directed on hard, nonporous surfaces.

DISINFECTION		SANITIZATION (NON-FOOD-CONTACT)	
BACTERIA	KILL TIME	BACTERIA	KILL TIME
<i>Bordetella bronchiseptica</i>	10 min	<i>Escherichia coli</i> O157:H7	1 min
<i>Campylobacter jejuni</i>	10 min	<i>Klebsiella pneumoniae</i>	1 min
<i>Escherichia coli</i> O157:H7	10 min	<i>Proteus mirabilis</i>	1 min
<i>Pseudomonas aeruginosa</i>	10 min	<i>Salmonella enterica</i>	1 min
<i>Salmonella enterica</i>	10 min	<i>Staphylococcus aureus</i>	1 min
<i>Staphylococcus aureus</i>	10 min	<i>Streptococcus pneumoniae</i>	1 min
<i>Streptococcus pyogenes</i>	10 min	SANITIZATION (FOOD-CONTACT)	
VIRUSES		BACTERIA	
Canine Parvovirus	5 min	<i>Escherichia coli</i> O157:H7	1 min
Human Coronavirus	5 min	<i>Listeria monocytogenes</i>	1 min
Influenza A Virus	5 min	<i>Salmonella enterica</i>	1 min
Rhinovirus	5 min	<i>Staphylococcus aureus</i>	1 min

Product Information

EPA Reg. No. 67619-42
